J-Mate® Dryer Maintenance

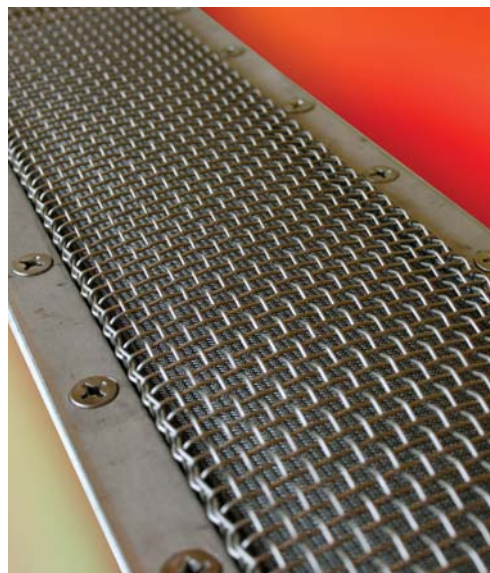

Water Technologies

SIEMENS

J-Mate® Dryer Maintenance

Your J-Mate® Continuous Dryer is designed to significantly reduce your disposal costs by removing residual water from your disposal cake — delivering an investment payback in as little as 6 months. Make sure you're achieving maximum savings by keeping your J-Mate® Dryer in optimum operating condition. Siemens Water Technologies offers you OEM replacement parts that can return your J-Mate® Dryer to its original capacity for higher throughput and drier, lighter solids.

Burners, extruder blades and debridger arms take the brunt of the drying process. The high-wear replacement components are manufactured to original specifications to assure longer, more efficient performance. Your Siemens parts department maintains inventory of original factory equipment for faster shipping. Call today.

ISO 9001:2000 QMS

The quality management system governing the manufacture of these products is ISO 9001:2000 certified.

Don't Delay, Order Today

- Assure optimum system performance
- Reduce unexpected parts failure
- Save on maintenance and labor
- Keep solids drier, disposal costs lower
- Enhance operator safety

Saving Energy Dollars?

Highly efficient infrared heaters reduce energy. New gaskets and fittings included.

DRYER SIZE	SIEMENS PART #	QTY
120	10474200	5
180	10474200	8
360	10474200	16

Other parts to consider

- Copper tubing
- Vents
- Insulation
- Thermocouple

Getting Good Extrusion?

Extruder blades force cake through the holes in the screen.

DRYER SIZE	SIEMENS PART #	QTY
120	10481100	4
180	10447600	4
360	10483600	4

Other parts to consider

- Backing plates
- Arm plates
- Extruder shaft
- Conveyor belts

Need Higher Throughput?

Cake breaker arms in receiving hopper ensure material is fed into the extruder.

DRYER SIZE	SIEMENS PART #	QTY
120	10852300	3
180	10852300	5
360	10852300	7

Other parts to consider

- Paddle rubber
- Paddle backing
- Wobble arms
- Debridger shaft
