

Envirex Diamond™ Edition Fine Bubble Diffuser Membrane

The Envirex Diamond edition membrane diffuser is a breakthrough in fine bubble membrane technology. The diffuser was specifically developed to address the shortcomings of typical membrane diffusers.

Custom Formulated EPDM Material

- Wastewater specific compound
- Tensile strength up to 50% greater than competitors
- Lower soluble oil content for longer life
- New Diamond Aperture Configuration
 - Lower life cycle costs
 - The diamond layout results in higher oxygen transfer efficiency
 - Wider operating airflow range
 - Reduced headloss
 - Longer service life
- Designed specifically for use in DualAir fine bubble systems. The DualAir system has the most robust piping system and lowest installation cost of any 9" membrane diffuser available in the industry.
- Can be used to retrofit existing 9" ceramic or membrane installations of any major manufacturer.
