

## Replacement Reverse Osmosis (RO) Membranes

Siemens is your leading source for replacement membranes. We supply elements from all of the major manufacturers. For your convenience, we inventory FILMTEC™ and Hydranautics® membranes at our regional distribution facilities. This enables us to meet short lead times and thereby minimize your system downtime. In addition, we also stock major components such as replacement gauges, pumps and end caps. Whether it involves normal wear-and-tear replacement, maintenance or spares inventory, Siemens has the products to support your membrane system.

Manufacturer	Size DxL	Siemens Catalog No.	Manufacturer's Catalog No.	Type	Approx GPD	% Reject
Ionpure	4 x 40	06/PL32364-01R	PWS PFC-4	TFC	2300	99.6
