

# Vanox™ Advanced Oxidation Point-of-Use System Technology Map

- Legend**
- BPCV PLC Back Pressure Control Valve Programmable Logic Controller
  - FC Fail Close
  - FI Flow Indicator
  - FIT Flow Indicating Transmitter
  - HX Heat Exchanger
  - LIT Level Indicating Transmitter
  - PIT Pressure Indicating Transmitter
  - POU Point Of Use
  - TIT Temperature Indicating Transmitter
  - TOC Total Organic Carbon
  - VFD Variable Frequency Drive

- Consistent Process Control**
- Reliable TOC Reduction
  - Reduced Particle Count
  - Low Metal Contaminants
  - Consistent Temperature Control
