

Strantrol® Controller Accessories

209B Sensor Meter

General Description

The 209B Sensor Meter is a compact, portable diagnostic instrument, which is used to determine the reliability of pH and HRR® sensors. These units connect easily to the sensor BNC connectors providing true and accurate digital reading in millivolt or pH units. The 209B Meter is designed to isolate the sensor from electrical interference, providing accurate values. Six AA batteries or a 9 VDC transformer powers the 209B Sensor Meter.
