## SG-700 Signal Generator

### General Description

The SG-700 signal generator is a compact, portable diagnostic instrument. All devices are equipped with two 36" lead strips each having a BNC connector. The SG-700 signal generator allows factory trained technicians to calibrate Strantrol® water chemistry controllers. The signal generator can be used to verify proper operation, check and actuate indicator lights – meters, recorders, and a signal transmitter's functionality. The signal generator is powered by a 9 VDC battery.
